**Kresge
College**

Welcome to Kresge

This self-guided tour will take you
through our community
in seven numbered sections.

1 Section Two: Upper Street

This is the social hub of the college. The **College Programs Office** develops and leads many fun and engaging events each year and checks out movies, recreation equipment and games. The **Town Hall** is a performance center where concerts and other events happen regularly. Directly behind the Town Hall is the **Kresge Music Co-op** where students play amplified instruments not permitted in the apartments. Located next door to the Town Hall is our college café, **The Owl's Nest**, a sunny spot for good food, coffee, tea, smoothies and an array of healthy, vegan and vegetarian options. Across the way, in Apartment 714, is the campus **CARE Office**. Professional and student staff serve with preventative outreach, collaboration and care.

2 Section Two: Upper Street Apartment and classroom areas

This area includes many of our apartment “**suites**”. The suites typically house nine residents. The apartments have two bathrooms and a living room. The apartments also have full kitchens. Building four is what we call our “**flats**” that house five to six residents in two bedrooms, also with a living room, one full bath and a kitchen. Virtual room tours are available on-line: housing.ucsc.edu/tours/kresge. The **Kresge Study Center** is found in this section, students can take advantage of a quiet study space close to home.

3 Section Three: Multiple use area

The Kresge **Food Co-op** sells natural and organic foods. Anyone may buy food at the Food Co-op, while members receive a discount. The Co-op operates as a collective with a variety of membership options. Kresge buildings **J & K**, our three person apartments for upper class students, are located here. Across the way is the **I-Lounge** where students may relax, study or attend a wide variety of events and activities.

4 Section Four: Lower Street

Many of our six-person “**flats**” are located here. Also available are the building three “**suites**” that house nine people. A card operated **laundry room** is in the center of Lower Street, as well as our **computer lab** with 16 PCs and printing available during posted hours.

5 Section Five: Piazzetta area

This is the entrance to our college and a popular spot with our students. Students socialize, study or just relax here. As you walk from Lower Street to the Piazzetta, the diagonal ramp to your left leads to the **STARS Offices** (Services for Transfer and Re-entry Students) and the **Common Ground Center**. In the Piazzetta, you will find our **College Office** where students go for academic information and assistance. Directly to the side of this office is our **College Provost House** where the academic head of the college, the Provost, resides. Also in this area is the college **mailroom** where students receive all their mail and packages. Upstairs is the **Kresge Photo Co-op**, a black and white processing darkroom and the **Seminar Room 159**.

6 Section Six: Communal area

The **Veterans Resource Center**, that provides assistance and support for veteran students, is located here directly next to the **Student Lounge**. The lounge features a large screen TV and comfortable furniture for relaxing and socializing. Upstairs is a full kitchen and bath area, intended for our commuting students to stop in between classes to relax and refresh.

7 Section Seven: Recreation area

In this area you'll find our **Recreation Room** and **Kresge Meadow**. The Rec. Room has comfortable furnishings, a pool table, foos ball, air hockey and darts. There is also wireless network access for students use and a half basketball court. Another housing option here are the “**Triplets**”. These three apartments house 3 students each.

We hope you've enjoyed
your walking tour and
our college! Thank you for visiting
and have a wonderful day!
