

## Kresge Parliament – 4/22/10

Meeting Start: 6:34 PM      Ice Breaker: Favorite meal of the day and why  
Quorum: 8 voting members

### Guests:

**Mike Yamaguchi-Gleason- College Admin Officer RE: Kresge East/Redwood Grove Housing Change**

**History:** Kresge East was developed as Graduate Student Housing. Too few students to fill development, given to Kresge. Kresge protested the decision concerned about forming community across the ravine.

**Reasoning:** Students wanted an opportunity to live with students from other colleges without changing affiliation. Identify a space that would be attractive to Jrs/Srs. No admin. plot to overthrow Kresge. Lots of Kresge students still living there. Trying to keep students on campus. 280 students signed up for Redwood Grove (77 Kresge students). Kresge will probably continue to have the bulk of the students in Redwood Grove. (Mike did ask if students in East now could be grandfathered in-not approved) Facing empty beds. Can only take 3,200 frosh. This will be an experiment.

**Answers to concerns:** CA jobs lost will be evened out by Kresge CAs working at Porter. Kresge East was chosen because it's separate from the college due to the ravine. As K.E. will no longer be managed by Kresge the name has been changed. Kresge will probably not get Kresge East back. It will continue to be a space for upper-class students. There are spaces within each of the colleges for inter-collegiate living. There will be a Veteran community at Kresge East. Porter and Kresge are adding age 21+ communities. Intercollegiate housing will be a permanent change. Colleges will find the money to pay for college nights.

**Other changes:** 250 Kresge transfers will be in the Porter A building (Porter A has 408 beds). Transfer program is an experiment. Transfers can move out after fall quarter. May or may not take winter transfers- only UCSC and UCR take them). More doubles and singles in Porter A than anywhere else. Porter A will have no frosh. Some Kresge frosh will be in Porter B.

**Other:** Admittedly, poor planning. Students should have been involved in decision- probably wouldn't have changed the decision. Success will be measured by retention/ how many people get placed/ sign contracts. Follow up in the form of experience/assessment/evaluation

### Budget Requests:
